WASHINGTON METROPOLITAN AREA TRANSIT COMMISSION

WASHINGTON, D.C.

ORDER NO. 2632

IN THE MATTER OF:	Served November 27, 1984				
Provision of Emergency Service for)	Case No. MP-84-09				
Commuters from Greenbelt, Md.)					

By Order No. 2624, served October 31, 1984, and incorporated by reference herein, the Commission directed Airline Baggage Carriers, Inc. (ABC), to provide transportation for passengers, in special operations, between the State Aviation Administration bus terminal in Greenbelt, Md., and the Capital Hilton Hotel, Washington, D.C. during the month of November 1984. Such action was necessary to preserve public transportation for commuters living in Greenbelt.

The Commission also directed ABC to do a traffic analysis so that the Commission would have data on which to predicate further action in this matter. The tables below shows the number of paying riders using the service during the data collection period.

As can readily be seen, the ridership is sporadic and spread out over each weekday. Hence, many of these riders could not be served by a carrier operating only during commuter rush hours.

Correspondence was received from Mrs. Deanne P. Lange of Greenbelt. As pertinent, Mrs. Lange suggested that the traffic analysis conducted by ABC may have missed some riders who, believing there would be no bus service, had made alternate travel arrangements. Mrs. Lange also emphasizes the need for flexible service at ". . . a rate competitive with Metro." */ The Honorable Gil Weidenfeld, Mayor of Greenbelt, also wrote expressing similar concerns.

ABC has advised the staff of the Commission that it is willing to continue service to Greenbelt commuters. The company had earlier expressed some reservations because of the possibility that extra stops at Greenbelt might inconvenience passengers travelling to or from Baltimore - Washington International Airport. As a result of the traffic analysis done by ABC, the company has been able to determine that there would be minimal adverse impact on airport travellers.

In addition, ABC has informed the staff that it believes some riders hold the view that a round-trip ticket must be used in one day. Such is not the case. A round-trip ticket entitles the bearer to two rides for a total charge of \$6.00. Moreover, ABC has proposed instituting a 10-ride pass at the cost of \$30.00. This pass, issuance of which shall be approved below, will entitle the bearer to 10 rides

^{*/} Metro provides service between Greenbelt and Washington, D.C. by operating buses (Routes R-11, R-12, R-15 and T-16) which connect with the subway at New Carrollton or Deanwood. A one-way trip on Metro during rush hour costs \$2.70.

in any direction or combination of directions. Thus, it will provide the lower cost of the round-trip fare combined with the convenience of the non-directional ten-ride-ticket format.

Based on the evidence now before us, the Commission finds that the public convenience and necessity requires continuation of the service being provided by ABC between Greenbelt and the District of Columbia. We further find that expedited action is required to preserve service for the public and to assure the public that reasonable, adequate and continuous service will remain available at just and reasonable prices. The Commission commends ABC for its willingness to assist the public and for its cooperative response to this problem. To permit continued service to the public in a responsive manner, ABC is invited to submit an application pursuant to Title II, Article XII, Section 4(b) of the Compact for a certificate of public convenience and necessity.

The Commission, however, does not intend to wait for an application from ABC (or any other interested carrier). As stated above, the public interest mandates a prompt and definitive resolution of this situation. Accordingly, the Commission shall hold a public hearing in Greenbelt to make a record on which such a resolution can be based. Notice of the hearing (by copy of this order) will be given to all riders for whom the Commission has names and addresses. In addition, the staff shall cause notice to be published in the local newspapers of general circulation in Greenbelt, namely the Prince George's Sentinel and the Greenbelt News Review. The Commission reserves full jurisdiction to take such further action as may be warranted by the evidence adduced at that hearing, including, but not limited to, the processing of an application for a certificate of public convenience and necessity on an expedited basis and without further hearings. All persons having an interest in this matter are, therefore, advised to attend the public hearing scheduled below.

THEREFORE, IT IS ORDERED:

- 1. That Airline Baggage Carriers, Inc., is hereby directed, pursuant to Title II, Article XII, Section 4(e) of the Compact, to transport passengers, in special operations, between the State Aviation Administration bus terminal near Southway and Greenbelt Road, Greenbelt, Md., and the Capital Hilton Hotel, 16th and K Streets, N.W., Washington, D.C., from December 1, 1984, through January 31, 1985, unless otherwise ordered by the Commission.
